Jingcheng QY55H3 Truck Crane (55Ton; YOM 2013)

Key Specification

Manufacturer: Jingcheng Heavy Industries
Type: Truck Crane, Mobile Crane
Chassis: 4 Axles (Truck Chassis)
Condition: Used - Ready for work
(Regular Greased and Serviced)

Robust and Cost Effective

Known for its mechanical simplicity and durable chassis. JC Crane is ideal for heavy lifting tasks where reliability and ease of repair are priorities. Comes with Lattice Jib.

Reinforced Boom Head

High-visibility hazard markings on the boom tip. Sheaves and wire rope tracking are well-maintained for friction-free operation.

Jingcheng QY55H3 Truck Crane (55Ton; YOM 2013)

High-Torque Slew System

The slew ring and hydraulic rotation motor are in excellent condition, ensuring smooth and precise 360-degree positioning (as evidenced by clean, well greased gears in photos)

Detailed under-carriage photo show a well maintained hydraulic manifold and hose routing with no significant leaks, maintaining consistent system pressure.

Practical Workspace

The operator's cabin is designed for functionality, featuring an intuitive control layout that minimises the learning curve for new operators.

Superior Stability

Features a heavy duty 4-axle chassis with reinforced leaf-spring suspension for maximum load distribution during transit and operation.

Tyres show healthy tread depth; chassis and structural welds have been inspected with integrity.
